SUMMARY

Frontend Developer (React) with 3+ years of experience building scalable SaaS platforms and web applications. Skilled in developing responsive user interfaces, integrating APIs, and collaborating with cross-functional teams to deliver production-ready solutions.

EXPERIENCE

Frontend Developer

May 2023 – Dec 2025

Engineerforce

- Collaborated with backend engineers and designers to deliver production-ready features for a SaaS project management platform
- Built and maintained React-based SaaS platforms for enterprise clients with complex business logic and role-based access systems
- Implemented reusable components and optimized UI performance for efficient and consistent user interfaces

Frontend Developer

Oct 2022 – May 2023

App.com.mm

- Developed React-based web applications including ERP dashboards and Progressive Web Apps (PWA)
- Implemented authentication flows and role-based access control (RBAC) for secure user management

PROJECTS

Enterprise Data Management Dashboard | *React, Redux Toolkit, Material UI*

Sep 2023 – Dec 2025

- Developed a drag-and-drop form builder enabling administrators to create and manage customizable forms with multiple input types
- Implemented role-based access control (RBAC) with configurable permissions for platform and client administrators across the system
- Built high-performance data tables using TanStack React Table with filtering, search, and row virtualization for large datasets
- Designed file management features including CSV import/export and document preview for efficient data handling

Ad Distribution & Order Platform | *React, Redux Toolkit, Material UI*

Jun 2024 – Dec 2025

- Developed an interactive map interface using Google Maps and GeoJSON for region selection and radius-based targeting
- Built a multi-step order workflow supporting file uploads, coupon usage, and payment processing
- Implemented order tracking features for users and administrators to monitor order status and progress
- Built multi-role admin dashboards with role-based access control, enabling management of users, orders, and platform modules including notifications, coupons, and campaigns

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML, CSS

Frameworks & Libraries: React, Redux Toolkit, Material UI, React Hook Form, TanStack React Table, React DnD

Developer Tools: Git, Vite, npm

EDUCATION

Dagon University

Bachelor's Degree in English

Yangon, Myanmar

2016 – 2020

CERTIFICATIONS

Certificate in Frontend Development

MMS International

2022
